**SUBJECT:** Transmittal of the Budget for the Fiscal Year Beginning May 1, 2017 and Ending December 31, 2017.

---

Attached please find the approved budget for the Village of River Grove's fiscal year beginning May 1, 2017 and ending December 31, 2017. The underlying appropriation ordinance was approved at the Village Board meeting on June 1, 2017. The purpose of this memo is to provide you a written summary of the spending plan as prepared with input from the Village's operating departments while taking into consideration the financial resources that the Village will receive in this 8 month fiscal period.

**Introduction**

As indicated, the reader will note that this Village budget is for only an eight (8) month period. This is due to the Village's recent action that converts the Village's fiscal year to a calendar year period beginning on January 1, 2018. To accommodate this transition, it is necessary for the Village to adopt this "stub" eight month budget to allow for the new annual 12 month cycle to begin on that date. As indicated in the discussions for this move, the movement to this new fiscal year cycle will allow for the Board in future budget cycles to consider the property tax levy concurrent with the annual budget discussion. By having a combined consideration of both at the same time, officials and citizens can more accurately discuss and decide the amount of tax levy they wish to allocate to that upcoming budget. Also, the revenues from that levy now become the funding source to that one budget whereas before, the revenues derived from one levy were apportioned to two different budget cycles because of the May 1 fiscal year.

**General Observations of the Current Year & Commentary on Upcoming  
Budgetary Actions**

- The overall 8 month expenditure budget currently before you totals \$9,965,757 with the general operating fund totaling \$6,083,642 or 61% of the budget. Budgeted revenues for all funds total \$9,571,852 of which \$6,004,845 are expected to be received by the general operating fund in revenues or other financing sources including inter-fund transfers.
- Though there is to be a water rate pass-through rate increase of 1.83% from the City of Chicago, the staff also will be conducting a water and sewer rate analysis to result in potential

rate adjustments to occur in the 2018 budget year. The current rate structure is not providing sufficient financial resources to fund the future replacement needs of the systems.

- Sanitation collection services are currently accounted as part of the general operating fund. In discussions with the Village's accounting auditors, it will be recommended to split out the revenues and associated costs of this operation to a separate enterprise fund beginning in 2018. It is believed that reflecting the operations of this activity separately, it will more accurately reflect the cost of this service and the appropriate fee rate to be charged.
- A comprehensive review of the Village's current health insurance should occur prior to the new enrollment period effective on January 1, 2018. With the current plan being self-funded, there may be cost savings available in the market place that can be accessed for less cost than the current plans.
- The Village has or will incorporate cost savings in the 2017B and future budgets by aggressively securing cost savings in processes and procedures. For example, the 2017B budget already reflects a savings of over \$41,000 in auditing fees as a result of issuing a Request for Proposal in February, 2017 for those required services. Anticipated for 2018 include potential savings to be experienced as a result of a comprehensive audit of the Village's communications charges that continue to be paid to AT&T for lines that may not be necessary or needed.
- Review of Finance/Collector/Village Office Operations – One of my goals as Interim Comptroller is to provide insight on possible organizational and related staffing options that may be possible for these functional areas. In the ever-increasing complex world of added governmental regulations and potential legislative actions on the state or national level that could impact the Village's financial resources, it becomes more important for the Village to consider attracting and/or retaining governmental professionals to manage the Village's resources in an efficient and cost-effective manner as well as effectively manage the day-to-day operations of the Village.
- Fund Accounting & General Ledger modifications – During the 2017B period, Finance staff will proceed to adjust, where appropriate and with the Village auditor's advice, the Village's accounting system to more accurately correlate the report to the Village's budget. Additionally, the Village will also modify the accounting system to reflect the expenditures and related inter-fund transfers. It is the intent to ultimately have efficient system-generated reports. We also intend to work with the auditors to modify, where appropriate, the Combined Financial Statements in the Annual Financial Report that will be performed after the end of the 2017B Budget.
- Working Cash Bonds – The Village is planning to utilize its home rule authority to issue up to \$3 million for the purpose of maintain a working cash fund that would allow for the Village's operating funds to "borrow" from it in case of emergencies. The intent would not be to use the funds to fund operations but only to provide cash flow when necessary. Having the funds on hand will also provide additional fund balance to the Village's financial statements.

### Revenues

The Village's General operating revenues are derived from a variety of sources. The summary chart below indicates the following estimated amounts and the percentage of the total estimated resources:

<b>General Fund Revenue Categories</b>		
Property Taxes	\$ 1,455,000	24.2%
Sales Taxes	1,295,000	21.7%
Income/Utility/ Other Taxes	1,283,550	21.5%
Licenses, Permits	367,230	6.2%
Fines & Forfeitures	261,000	4.4%
Grants	228,500	3.8%
Investment Income	900	0.0%
Charges for Services	858,215	14.4%
Miscellaneous	255,450	4.3%
<b>TOTAL</b>	<b>\$ 6,004,845</b>	

**Property Taxes** are annually levied and require approval by the Village Board of Trustees at the end of each calendar year. The funds levied are then collected by the Cook County Treasurer and distributed to each government twice a year in March/April and August/September. Because of the stub year, the 2017B Budget is only reflecting the revenues to be received from the 2<sup>nd</sup> installment of taxes in August/September of 2017. The following 2018 budget beginning on January 1 will reflect a full year's receipts.

**Sales Taxes** are the taxes collected by the Illinois Department of Revenue and constitute a monthly distribution from both the 1% municipal sales tax levied on all sales as well as the additional 1% Home-Rule Option sales tax that is levied on most retail sales except vehicles and most food and drugs.

**State Income Tax** is a portion of the amount of income taxes collected by the Illinois Department of Revenue that it distributes to local municipal governments. The proportional distribution of these funds is based upon the certified population census of each government.

**Utility Taxes** are consumption taxes collected by the utilities (Commonwealth Edison; NICOR and the telecommunication companies such as AT&T, Verizon; Sprint, etc.) and remitted to the Village as part of their franchise agreement to utilize easements to deliver their services to the residents of the Village.

**Other Taxes** include miscellaneous taxes assessed including the Personal Property Replacement Tax and the locally collected Hotel/Motel tax.

**Licenses, Permits and Fees** is a broad revenue category that accounts for items including vehicle sticker sales; cable television franchise fees and building and related construction permit fees.

**Fines and Forfeitures** accounts for the revenues the Village receives from various fines imposed for court fines and tickets. It also accounts for the late penalties imposed on late payments for sanitation services.

**Grants** accounts for any revenues received from the Cook County Community Development Grant Program that would be utilized for general government purposes and other specialized grants such as the state issued DUI Grant that funds overtime reimbursement to the Village's Police Department for enforcement activities.

**Charges for Services** is a rather broad revenue category that includes fees generated from inspectional services in the Building Department; the charges assessed by the Village for Waste Hauling services; charges for ambulance and outside detail services and finally, recreational fees for the variety of activities administered by the Village's Recreation Department.

**Miscellaneous** is the category to account for a variety of revenues received that do not fall into a particular category. Included are revenues received from the State for highway maintenance reimbursement and the revenues derived from the municipal share of state video gaming taxes.

#### Other Fund Revenues

**Property Taxes** for several other Village funds including IMRF and the Police Pension Fund are utilized to pay a portion (IMRF) or all (Police Pension) of the employer contribution to the respective pension fund. Additionally, a portion of the River Grove levy is for the payment on the debt service of the 2012 Capital Improvement Bonds.

**9-1-1 Surcharges** are the revenues derived from the use of land and cellular phones owned by residents and businesses located within the Village. The funds are deposited into this designated fund to assist in offsetting the costs for emergency communications.

**Motor Fuel Tax** is a state collected tax on motor fuel and a portion of the amount collected is remitted monthly to each municipal local government in the state based upon population. One will note that generally, as more vehicles go electric or become more fuel-efficient, the amount received on a per-capita basis from this tax has consistently dropped annually.

**Tax Increment** are the property taxes received from TIF Districts that have seen tax growth over and above the equalized assessed value of the district at the time the district was created by ordinance. The increment can only be used for projects or related debt within the boundary of the TIF area and have a maximum life of 23 years.

**Water Sales** are the revenues received from the retail sale of water to the residents and businesses located within the Village. Revenues generated are to both offset the cost of the price the Village pays for water from the City of Chicago as well as for the ongoing operational

costs for the water system including personnel services; power and maintenance of the transmission system for delivery to the customers.

**Sewer Charges** are the revenues received from the water customer that is based upon the consumption of water used each month. The funds are used to offset the costs of maintain the sewer transmission lines that transport the waste to the interceptor sewers of the Metropolitan Water Reclamation District (MWRD).

**Commuter Parking Passes and Fees** are the revenues received from either the sales of passes or the fees generated from Village-owned parking lots. They are deposited into a special fund and are used to offset the maintenance costs of these lots.

### Expenditures

#### GENERAL FUND

The General Operating Fund reflects the most revenues and related expenditures of the Village and accounts for governmental activities that residents generally expect from their government including Public Safety; most of Public Works; building code enforcement and inspectional services and general governmental administration including such areas as the Village President and Board of Trustees, Clerk, Legal, Health, Finance and Informational Technology services. In River Grove, recreation, cable television and the costs associated with waste hauling services are also accounted for as well. The fund accounts for over 61% of the total budget for 2017B. Personnel Services (not including pension or FICA/Medicare contributions) total approximately \$2.99 million or 51% of the general fund with contractual services, commodities and some capital expenditures comprise the rest.

To summarize the general fund, the expenditures being proposed, as compared to the current year ending on April 30, are status quo and not many desired programs can be implemented due to the current restraints of both the amount of the existing fund balance and only some revenues experiencing modest growth in 2017. Because of this, departmental directors were requested to only budget a "status quo" budget with only required and/or known cost increases to be included. It is hoped that as the departments progress with improved financial reporting that they have been receiving since the beginning of the calendar year, a better understanding of their future needs and preparation for those needs for the 2018 budget can commence with an earlier time frame in 2017. That in turn will allow the elected officials to have a better understanding of the "big picture" and allow for significant discussions as to the course of the Village going forward into 2018.

The departmental expenditures are categorized by function and comprise the spending plan for the eight month fiscal period. The departmental budget requests and the percent of their request to the total General fund budget request of \$6,083,642 follow:

**General Fund Departmental Expenditures**

Fire	\$ 774,518	13.0%
Police	1,835,810	30.9%
Public Works	1,102,300	18.6%
General Administration	1,444,014	24.3%
Economic Development	174,505	2.9%
Health	12,275	0.2%
Culture and Recreation	78,250	1.3%
Inter Fund Transfers	661,970	11.2%
		<b>\$ 6,083,642</b>

Highlights of the proposed spending plan, by department, follows:

**Fire**, as with the other departments in the General Fund, have submitted a spending plan with minimal impact. Of special note is the implementation of a compensation process for operations personnel that provides both a modest pay adjustment as well as a more simplified command structure for the on-duty personnel serving on that shift.

**Police**, the largest department both in personnel numbers and in budget size, will see an overall increase in their personnel services budget due to the implementation of salary adjustment called for in their collective bargaining agreement that was completed in 2016. The agreement stays in effect through April 2020.

**Public Works** is experiencing a significant reduction in overall expenditures as compared to the previous two years as the construction of the new facility and the related costs for it are now removed from the current budget. Also budgeted in the current budget is an offset to personnel costs from an inter-fund transfer from the Motor Fuel Tax fund that compensates the general fund for work provided by personnel that are eligible for reimbursement. Examples of reimbursable expenses include street sweeping and street and sidewalk maintenance.

**General Administration** departmental budgets generally are proportionately equivalent to the expenditures from the budget except for several categories:

- As mentioned previously, health insurance related costs did not go down as initially anticipated in the previous budget due to benefit and deductible changes that were initially planned that did not proceed to implementation. I will be performing research in possible alternatives to the current setup including funding options other than being fully self-insured.
- The Village's property/casualty/worker's compensation premium for the insurance year beginning on May 1, 2017 experienced a reduction in annual premium in excess of \$35,000. This was due to better claims experience, especially in the worker's compensation area. Ongoing training of better safety and work practices are provided by the administrator agency that has helped reduce the Village's claims experiences.

- The Village issued an RFP for a multiple year auditing contract that resulted in a significant reduction in the annual audit costs. For the 2016 fiscal year audit, the Village paid in excess of \$75,000 for its annual financial report. That fee will be reduced to \$33,500 for the audit of the 2017 fiscal year.
- Informational Technology upgrades are currently being discussed by the Village Board of Trustees that will more than likely see significant changes in how the Village utilizes informational systems and the Village's website. As these issues still are being discussed, the preliminary fiscal impacts for these changes have been incorporated into this document prior to its planned adoption in May, 2017.
- The reader will note the Village is separately budgeting and accounting for inter-fund transfers that account for the transfer of the designated revenues pledged for the debt service of the 2006A Alternate Revenue (Utility Tax) bonds and the 2008 Alternate Revenue (Sales Tax) bonds. Though these liabilities have been in place since the bonds were issued, till now the budget did not specifically include them as an expense and only relied on audit adjustments after the close of the fiscal year to reflect those transfers. The transfers for these payments total \$537,320 in the upcoming fiscal period. Additionally, due to levy constraints, the Village had never fully funded its IMRF/Social Security/Medicare employer liabilities and relied on audit adjustments to reflect those additional expenditures through inter-fund transfers. To reflect that additional cost, an additional inter-fund expense of \$124,650 is now also reflected in that category.

I am pleased to report, that as of the writing of this report, the Village's General Fund is **balanced** and has a projected operating surplus of approximately **\$1,200**. I believe that this is significant improvement where the Village previously had been experiencing a downward trend in its operating fund balance. It is hoped that with improved budgetary reporting in the future, the Village elected officials and staff will be more attuned to budget trends and be able to react accordingly.

### **WATER & SEWER FUNDS**

Water and Sewer funds are reflected separately in municipal budgets and financial reports due to the fact that they are viewed as an "enterprise" where the fees and charges for a product like water are expected to cover the cost and delivery of that product and no other governmental services. It is also expected that usage (consumption) will also assist in funding any future improvements that are deemed to be necessary to continue the operation into the future.

Fortunately for the Village, it is located near the largest source of fresh water in the world. The village purchases its water from the City of Chicago and has a long-term commitment for its continued delivery. The overall rate to the citizen is to both offset the cost of the price the Village pays for water from the City of Chicago as well as for the ongoing operational costs for the water system including personnel services; power and maintenance of the transmission system for delivery to the customers. As indicated previously, the Village in this budget will be passing through a 1.83% rate hike being imposed by the City of Chicago in June, 2017. This will result in a rate adjustment to \$7.65 from the current rate of \$7.50 per 1000 gallons.

The sewer fund bases its revenues from the consumption of water used by the consumer who presumably then disposes most of the used water into the municipal sewer system. The

June 5, 2017

Page viii

revenues generated from these fees are used to offset the cost of repair and replacement of the sewer transmission mains.

In both instances, the 2017B budget is only providing for the general delivery and maintenance to the system as the staff works on a comprehensive rate analysis on what the future needs of the systems and the resources that will be required to fund those needs. It is anticipated that upon completion of that analysis, significant discussion will be required of the Village board to determine the steps necessary to fund those improvements with future rate adjustments.

#### **MOTOR FUEL TAX**

Motor fuel tax revenues can only be used for road related expenses since the revenues received from the State of Illinois are generated from a tax on the sale of motor fuel within the state. Besides some general maintenance and replacement of street lighting, there are three new road related costs that are included in the 2017B budget.

1. Costs associated with the construction of a new salt dome at the Public Works facility on West Street.
2. Street Sweeper rental fees. This is a charge to the fund to assist in the payment of the lease for the sweeper.
3. Reimbursement costs to the general fund for public works personnel performing eligible work on the Village streets, alleys and sidewalks.

#### **COMMUTER PARKING**

Because the Village operates several municipal parking lots that collect fees for parking and related permits, the Village is required to account for this activity like an enterprise function such as water and sewer. It is believed that with additional development planned for the downtown area may result in increased demand for parking there and at the METRA station. Continued monitoring of those potential impacts may result in additional study made in the future.

#### **BELMONT THATCHER TIF**

A majority of the expenses related to this fund relate to the payment of the debt service that initially provided the necessary funds for the development.

#### **9-1-1 EMERGENCY TELEPHONE**

The fund accounts for the revenues the Village receives from the 9-1-1 surcharge that is assessed on both landline and cellular devices registered to residents and businesses located in the Village. Funds collected can only be used for emergency communication purposes and are earmarked in 2017B budget for the repair and replacement equipment and to offset the cost of the Village's participation in Joint Dispatch operations with NORCOMM.

#### **POLICE PENSION**

The Village's Police Pension fund is a statutorily required trust fund that is kept by the Village but managed by a separate board of trustees comprised of two active police officers, one retired

June 5, 2017

Page ix

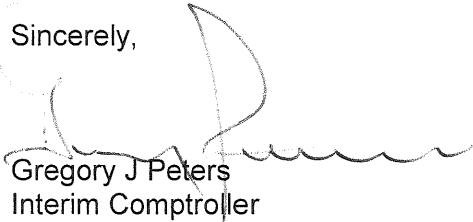

police officer and two mayoral appointed citizens. The board of trustees conducts the business of the fund; determine pensions for retirees and recommends the annual tax levy necessary to fund future benefits to the Village Board of Trustees. As with most pension funds throughout the state, a variety of factors have resulted in most pension funds experiencing significant funding issues resulting in concerns of their financial capacity to make future pension obligations. The Village has aggressively responded in recent years to reverse that downward trend and will continue to address those concerns in future budget discussions.

### **CONCLUSION**

I am very pleased that I have had the opportunity to assemble this budget for the Village of River Grove for this shortened fiscal year. I believe that by both aggressively completing the budget in a timely manner as well as having the Village Board of Trustees adjust their future fiscal years to a calendar basis will allow for this board and future boards to have a more coordinated approach to the funding and expenditure decisions that will be necessary for the Village to make and to move forward to ensure that the Village of River Grove continues to be a welcoming place for citizens and businesses alike.

I want to take this opportunity to extend my appreciation to Lynn Bjorvik, Acting Village President and Michelle Obaya, Finance Chair, as well as to the rest of the Board of Trustees for their advice and assistance in the development of this budget. Additionally, I want to welcome the Village's new President David Guerin as well as new Trustee Michael Konwinski to the team. Finally, I would also like to extend special thanks to Jeanne Walsh, Administrative Assistant, as well as to the other personnel of the finance front office staff and to the department heads and employees of the Village who make the effort to make this community a great place to live and work.

Sincerely,

Gregory J Peters  
Interim Comptroller
