**SUBJECT:** Transmittal of the Proposed Budget for the Fiscal Year Beginning January 1, 2018 and Ending December 31, 2018.

---

Attached please find the proposed budget for the Village of River Grove's fiscal year beginning January 1, 2018 and ending December 31, 2018. The purpose of this memo is to provide you a written summary of the spending plan as prepared with input from the Village's operating departments and discussions with the elected officials while taking into consideration the financial resources that the Village will receive in this fiscal period.

You will recall that the village last year adopted a revised fiscal year that now provides for the annual spending plan to coincide with the property tax levy. Going forward, it would be my recommendation that the Village staff and board attempt to assemble a budget concurrently at the time the following year's tax levy is being considered. Unfortunately, other major operational issues such as the employee health insurance change took up more of my time than anticipated and I was not able to coordinate and prepare the recommended budget at that desired time.

**General Observations of the Current Year & Commentary on Upcoming  
Budgetary Actions**

- The overall 12 month expenditure budget for all funds totals \$18,472,340 with the general operating fund totaling \$10,139,498 or 54.9% of the total budget. Budgeted revenues for all funds total \$18,189,925 of which \$10,348,600 are expected to be received by the general operating fund. I am happy to report that current projections are that the general fund will experience a surplus in 2018 of approximately \$209,000.
- Though the Village will not be notified by the City of Chicago of its water rate increase until April/May of this year, the budget anticipates an increase of 2% in this budget. The budget also anticipates a water and sewer rate study to result in potential rate adjustments to occur in the 2019 budget year. Though the current fund balance (net position) of the water and sewer funds are adequate, the current rate structure is not providing sufficient financial resources to fund the future capital infrastructure replacement needs of both systems.

- A comprehensive review of the Village's current health insurance occurred in 2017 resulting in the Village securing an alternative insurance source for employees effective in January of 2018. Though it is still a self-funded product, the Village is now part of a large municipal cooperative comprised of over 25,000 municipal employees that historically has maintained very competitive rates with minimal inflationary pressure to annual rate hikes.

- The Village has incorporated cost savings in the 2018 budget. For example, last year the Village issued a Request for Proposal for Auditing Services that resulted in savings in excess of \$35,000. Also in 2018, cost-reductions of approximately \$80,000 have been implemented in communication charges that previously had been expended for AT&T lines that were not disconnected at the time the Village converted to a new telephone system.

- Working Cash Bonds/Bond Refinancing – In June of 2017, the Village issued two bond issues. One series refunded existing debt from 2006 and 2008 for future principal and interest savings in excess of 4%. Additionally, \$3.5 million was issued in working cash bonds that provides the Village general fund a financial infusion of those funds to assist in maintaining an adequate fund balance into the future with the intent to only access those “reserves” in an emergency. Unfortunately, in late 2017, the Village Board was confronted with an untenable issue of its fire department main and backup apparatus to both be inoperable. After considerable discussion, the Board elected to proceed with an expedited purchase of an engine and proceeded to access \$450,000 of those working cash funds for its acquisition. The Village is committed to the repayment of that draw and has included in the 2018 budget a transfer to begin to pay back that “Inter-fund loan”.

### Revenues

The Village's General operating revenues are derived from a variety of sources. The summary chart below indicates the following estimated amounts and the percentage of the total estimated resources:

General Fund Revenue Categories		
Property Taxes	\$ 3,615,000	34.9%
Sales Taxes	2,050,000	34.4%
Income/Utility/ Other Taxes	1,845,500	31.0%
Licenses, Permits	535,550	9.0%
Fines & Forfeitures	465,000	7.8%
Grants	288,750	4.8%
Investment Income	4,000	0.1%
Charges for Services	1,193,000	20.0%
Miscellaneous	351,800	5.9%
<b>TOTAL</b>	<b>\$ 10,348,600</b>	

**Property Taxes** are annually levied and require approval by the Village Board of Trustees at the end of each calendar year. The funds levied are then collected by the Cook County Treasurer and distributed to each government twice a year in March/April and August/September.

After considerable discussion and public input, the Village Board approved an increase in the General fund's 2017 levy collected in 2018 that will result in an additional \$750,000 of property taxes. Because of that additional infusion of dollars, the Village has additional financial resources to begin to address ongoing operational and capital needs that have been deferred over the last several years.

**Sales Taxes** are the taxes collected by the Illinois Department of Revenue and constitute a monthly distribution from both the 1% municipal sales tax levied on all sales as well as the additional 2% Home-Rule Option sales tax that is levied on most retail sales except vehicles and most food and drugs.

**State Income Tax** is a portion of the amount of income taxes collected by the Illinois Department of Revenue that it distributes to local municipal governments. The proportional distribution of these funds is based upon the certified population census of each government.

**Utility Taxes** are consumption taxes collected by the utilities (Commonwealth Edison; NICOR and the telecommunication companies such as AT&T, Verizon; Sprint, etc.) and remitted to the Village as part of their franchise agreement to utilize easements to deliver their services to the residents of the Village.

**Other Taxes** include miscellaneous taxes assessed including the Personal Property Replacement Tax and the locally collected Hotel/Motel tax.

**Licenses, Permits and Fees** is a broad revenue category that accounts for items including vehicle sticker sales; cable television franchise fees and building and related construction permit fees.

**Fines and Forfeitures** accounts for the revenues the Village receives from various fines imposed for court fines and tickets. It also accounts for the late penalties imposed on late payments for sanitation services.

**Grants** accounts for any revenues received from the Cook County Community Development Grant Program that would be utilized for general government purposes and other specialized grants such as the state issued DUI Grant that funds overtime reimbursement to the Village's Police Department for enforcement activities.

**Charges for Services** is a rather broad revenue category that includes fees generated from inspectional services in the Building Department; the charges assessed by the Village for Waste Hauling services; charges for ambulance and outside detail services and finally, recreational fees for the variety of activities administered by the Village's Recreation Department.

**Miscellaneous** is the category to account for a variety of revenues received that do not fall into a particular category. Included are revenues received from the State for highway maintenance reimbursement and the revenues derived from the municipal share of state video gaming taxes.

### Other Fund Revenues

**Property Taxes** for several other Village funds including IMRF and the Police Pension Fund are utilized to pay a portion (IMRF) or all (Police Pension) of the employer contribution to the respective pension fund. Additionally, a portion of the River Grove tax levy is for the payment on the debt service of the 2012 Capital Improvement and 2017 Working Cash Bonds.

**9-1-1 Surcharges** are the revenues derived from the use of land and cellular phones owned by residents and businesses located within the Village. The funds are deposited into this designated fund to assist in offsetting the costs for emergency communications.

**Motor Fuel Tax** is a state collected tax on motor fuel and a portion of the amount collected is remitted monthly to each municipal local government in the state based upon population. One will note that generally, as more vehicles go electric or become more fuel-efficient, the amount received on a per-capita basis from this tax has consistently dropped annually.

**Tax Increment** are the property taxes received from TIF Districts that have seen tax growth over and above the equalized assessed value of the district at the time the district was created by ordinance. The increment can only be used for projects or related debt within the boundary of the TIF area and have a maximum life of 23 years.

**Water Sales** are the revenues received from the retail sale of water to the residents and businesses located within the Village. Revenues generated are to both offset the cost of the price the Village pays for water from the City of Chicago as well as for the ongoing operational costs for the water system including personnel services; power and maintenance of the transmission system for delivery to the customers.

**Sewer Charges** are the revenues received from the water customer that is based upon the consumption of water used each month. The funds are used to offset the costs of maintain the sewer transmission lines that transport the waste to the interceptor sewers of the Metropolitan Water Reclamation District (MWRD).

**Commuter Parking Passes and Fees** are the revenues received from either the sales of passes or the fees generated from Village-owned parking lots. They are deposited into a special fund and are used to offset the maintenance costs of these lots.

### Expenditures

#### GENERAL FUND

The General Operating Fund reflects the most revenues and related expenditures of the Village and accounts for governmental activities that residents generally expect from their government including Public Safety; most of Public Works; Building Code Enforcement and inspectional services and general governmental administration including such areas as the Village President and Board of Trustees, Clerk, Legal, Health, Finance and Informational Technology services. In River Grove, recreation, cable television and the costs associated with waste hauling services are also accounted for as well. The fund accounts for over 54% of the total budget for 2018.

Personnel Services (not including pension or FICA/Medicare contributions) total \$3,506,000 of the general fund with contractual services, commodities and capital expenditures comprise the rest.

To summarize the general fund, the expenditures being proposed, as compared to the current year ending on December 31, 2017, greatly enhances the Village's ability in replacing rolling stock and building, street and alley improvements. The budget also addresses the Village's ongoing efforts in improving its social and media presence by its commitment to added information technology infrastructure and web presence that began last year. Finally, for the first time in over six years, the Village has also earmarked funds to provide salary adjustments to its greatest resource, its employees.

The departmental expenditures are categorized by function and comprise the spending plan. The departmental budget requests and the percent of their request to the total General fund budget request of \$10,139,498 follow:

General Fund Departmental Expenditures			
Fire	\$ 1,213,395	20.4%	
Police	2,879,025	48.5%	
Public Works	2,297,830	38.7%	
General Administration	2,490,883	42.0%	
Economic Development	244,475	4.1%	
Health	18,160	0.3%	
Culture and Recreation	131,130	2.2%	
Inter Fund Transfers	864,600	14.6%	
	\$ 10,139,498		

Highlights of the proposed spending plan, by department, follows:

**Fire**, the major effort highlighted in the 2018 budget is the acquisition of its new engine into operation in early March. Other needed capital acquisitions are planned for purchases to be phased into future year budgets.

**Police**, the largest department both in personnel numbers and in budget size, will see an overall increase in their personnel services budget due to a May 1<sup>st</sup> salary adjustment called for in their collective bargaining agreement that was completed in 2016. The agreement stays in effect through April 2020. Additionally, the budget does provide for the acquisition of 2 new police squads as well as the cost differential with auto insurance for a 3<sup>rd</sup> unit that was recently involved in an accident.

**Public Works** is experiencing probably the greatest changes of the operating departments. Significant funds have been earmarked for new vehicles that in some cases are replacing units in excess of 15 years old. Additionally, with the Village's commitment to increasing service quality, the budget includes the adding of a new laborer position. Also budgeted in the current budget is an offset to personnel costs of \$95,000 by utilizing funds from the Motor Fuel Tax fund

that compensates the general fund for work provided by personnel that are eligible for reimbursement. Examples of reimbursable expenses include street sweeping and street and sidewalk maintenance.

**Economic Development/Code Enforcement** has maintained operational capabilities and the ability to serve the public while at the same time took on the implementation of the backflow prevention program that was long deferred in implementing. Additional resources for code enforcement on weekends has been added to the 2018 budget.

**General Administration** departmental budgets generally are proportionately equivalent to the expenditures from the budget except for several categories. This area typically funds general operating and administrative functions including legislative; finance, human resources, information technology and legal services. With the recent appointment of a full-time human resources director, outside human resources professionals have been retained to review and update the Village's personnel policies and at the same time, the finance department has implemented both a new time management/payroll system as well as a new employee insurance benefits plan.

I am pleased to report, that as of the writing of this report, the Village's General Fund is **balanced** and has a projected operating surplus of approximately **\$209,000**. I believe that this is significant improvement where the Village previously had been experiencing a downward trend in its operating fund balance. It is hoped that with improved budgetary reporting in the future, the Village elected officials and staff will be more attuned to budget trends and be able to react accordingly.

### **WATER & SEWER FUNDS**

Water and Sewer funds are reflected separately in municipal budgets and financial reports due to the fact that they are viewed as an "enterprise" where the fees and charges for a product like water are expected to cover the cost and delivery of that product. It is also expected that usage (consumption by residents and businesses) will assist in funding future improvements that are deemed to be necessary to maintain the operation into the future.

Fortunately for the Village, it is located near the largest source of fresh water in the world. The village purchases its water from the City of Chicago and has a long-term commitment for its continued delivery. The overall rate to the citizen is to both offset the cost of the price the Village pays for water from the City of Chicago as well as for the ongoing operational costs for the water system including personnel services; power and maintenance of the transmission system for delivery to the customers. As indicated previously, the Village in this budget will be passing through an undetermined rate hike being imposed by the City of Chicago in July 2018. Depending on what that increase will be will determine the amount of increase that will be required. The current rate is \$7.65 per 1000 gallons.

The sewer fund bases its revenues from the consumption of water used by the consumer who presumably then disposes most of the used water into the municipal sewer system. The revenues generated from these fees are used to offset the cost of repair and replacement of the sewer transmission mains.

In both instances, the 2018 budget continues to provide for the general delivery of water and sewer services and maintenance to the system. The 2018 budget earmarks funding for a comprehensive rate analysis on what the future needs of the systems will be and the resources that will be required to fund those needs. It is anticipated that upon completion of that analysis, significant discussion will be required of the Village board to determine the steps necessary to fund those improvements with future rate adjustments.

### **MOTOR FUEL TAX**

Motor fuel tax revenues can only be used for road related expenses since the revenues received from the State of Illinois are generated from a tax on the sale of motor fuel within the state. Besides general maintenance, salary offsets and street lighting power, new or carryover projects included in the 2018 budget are:

1. Costs associated with the construction of a new salt dome at the Public Works facility on West Street.
2. Street Sweeper and vehicle rental fees. This is a charge to the fund to assist in the payment of the lease for the sweeper and operational vehicles.
3. Lyndale Avenue street construction CDBG match. This will provide for two additional blocks of street and curb/gutter construction.

### **COMMUTER PARKING**

Because the Village operates several municipal parking lots that collect fees for parking and related permits, the Village is required to account for this activity like an enterprise function such as water and sewer. It is believed that with additional development planned for the downtown area may result in increased demand for parking there and at the METRA station. Continued monitoring of those potential impacts may result in additional study made in the future.

### **BELMONT THATCHER TIF**

A majority of the expenses related to this fund relate to the payment of the debt service that initially provided the necessary funds for the development.

### **9-1-1 EMERGENCY TELEPHONE**

The fund accounts for the revenues the Village receives from the 9-1-1 surcharge that is assessed on both landline and cellular devices registered to residents and businesses located in the Village. Funds collected can only be used for emergency communication purposes and are earmarked in 2018 budget for the repair and replacement equipment and to offset the cost of the Village's participation in Joint Dispatch operations with NORCOMM.

### **POLICE PENSION**

The Village's Police Pension fund is a statutorily required trust fund that is kept by the Village but managed by a separate board of trustees comprised of two active police officers, one retired police officer and two mayoral appointed citizens. The board of trustees conducts the business of the fund; determine pensions for retirees and recommends the annual tax levy necessary to

February 27, 2018

Page viii

fund future benefits to the Village Board of Trustees. As with most pension funds throughout the state, a variety of factors have resulted in most pension funds experiencing significant funding issues resulting in concerns of their financial capacity to make future pension obligations. The Village continues to monitor and has responded in recent years to reverse that downward funding trend and will continue to address those concerns in future budget discussions.

### **CONCLUSION**

I am very pleased that I have had the opportunity to assemble this budget for the Village of River Grove for this fiscal year. I believe that the Village Board of Trustees have aggressively addressed the Village's needs and will continue to do so in the years to come. By doing so, they will ensure that the Village of River Grove continues to be a welcoming place for citizens and businesses alike.

I want to take this opportunity to extend my appreciation to David Guerin, Village President and Michelle Obaya, Finance Chair, as well as to the rest of the Board of Trustees for their advice and assistance in the development of this budget. I would also like to extend special thanks to Jeanne Walsh, Administrative Assistant, as well as to the other personnel of the finance front office staff and to the department heads and employees of the Village who make the team effort to make this community a great place to live and work.

Sincerely,

Gregory J Reters  
Interim Comptroller

# DEPARTMENTAL EXPENDITURES

## General Fund

### Public Safety Functions

- Fire
- Police
- Health

### Public Works Functions

- Operations
- Buildings
- Street Lighting
- Sanitation Services

### Administration

- Municipal Officials
- Village Clerk
- Information Technology
- Village Collector/Finance
- Legal Services
- General Administration
- Inter-Fund Transfers

### Economic & Community Development

- Economic Development Administration
- Building Code Enforcement & Inspection Services

### Culture & Recreation

- Cable Television
- Recreation Services
- Special Events
- Historical Society
